R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
## [1] "No. of total plots w/ fPAR data"
## [1] 91
## [1] "No. of plots under low light conditions"
## [1] 27
## [1] "No. of plots under high light conditions"
## [1] 64
```
